

ELECTRICAL ENGINEER

Rutter Engineering Inc is a multi-disciplinary company offering a full range of consulting engineering and project management services to municipal, marine, commercial and industrial clients. As part of the larger Rutter Inc. family, our engineering team is supported by a global enterprise committed to delivering value-added technology and engineering solutions that enable clients to make better use of their business assets. Rutter is an ISO 9001:2008 registered company.

Qualifications:

Candidate must possess a Bachelor of Engineering (Electrical), and must be registered, or be eligible for registration as a Professional Engineer in the province of Newfoundland & Labrador.

Position requires progressively responsible experience in design and project management of Electrical projects.

Experience and demonstrated ability in developing contract documents and administering projects.

Candidate must be self-motivated and demonstrate organizational, supervisory, and project management skills, as well as ability to work with a team of technicians and engineers.

Must demonstrate effective oral, written and interpersonal communication skills with the ability to establish and maintain strong working relationships with co-workers and clients.

Other combinations of training and experience may be considered.

Rutter offers a very competitive salary and a comprehensive benefits package, which includes an Employee Share Purchase Plan and profit sharing through a progressive bonus system. This is an exceptional opportunity for professional growth within a publicly traded company. We thank all candidates for their interest; however, only those selected for interviews will be contacted.

Rutter is an equal opportunity employer.

Please forward your resume (in confidence) on or before June 8, 2009 to:
